

The night of your life aboard famous Sydney Showboats

The Sydney Showboat recaptures the romance of paddle wheelers on Sydney Harbour which have operated since the 1800's. For years the Northern Peninsula was serviced by paddle driven vessels and Sydneysiders currently enjoy an extensive transport system on our waterways. After the austerity of wartime, Sydneysiders again had the chance to rekindle the romantic era with cruises on the Harbour. Kalang, a former vehicular ferry made redundant by the opening of the Sydney Harbour Bridge was refurbished and emerged as the Sydney Queen which cruised the Harbour until 1972 when it met with an untimely demise. In December 1987, the Sydney Showboat rekindled a colourful history when it made a spectacular and colourful entry into Sydney Harbour.

Since that spectacular and colourful entry into Sydney Harbour, almost twenty years ago the Sydney Showboat has entertained nearly two million passengers. The Sydney Showboat, Australia's Luxurious paddle wheeler, offers the jaded traveler an exciting alternative to the more conventional, staid cruises with

entertainment previously unavailable to visitors in Sydney.

For millions of passengers from overseas or within Australia, the expression "that's entertainment!" has come alive onboard the Sydney Showboat with their dazzling nightly cabaret, "Showboat Follies". In the tradition of the entertainment spectacles of Paris, London, New York and Las Vegas, "Showboat Follies" presents a cavalcade of changing performers guaranteed to delight audiences from all parts of the world. Visitors can experience the magic of Sydney Harbour by night and be thoroughly entertained onboard the luxurious vessel which plys the waterways of Sydney.

The exciting first-class cabaret features a captivating array of outstanding performers - everything from a comedy magician illusionist to a dynamic vocalist, the Showboat Follies Dancers and a lavish display of costumes. "Life is a cabaret" onboard the Sydney Showboat from the moment passengers step onboard.

The Showboat also delivers an innovative dining experience where the food is as much an art form as

Sydney's beautiful harbour. A 3 course a la carte menu is freshly prepared onboard and of course there are the million dollar views and five-star service, which the Sydney Showboat is renowned for.

"The Company philosophy from the very beginning has always been to place the customer first, providing a quality product which is value for money. In the twenty years of operation on Sydney Harbour, we have outstripped all our competitors. We are now considered the Premier brand, this has been forged by our dedication to both service and catering to the needs of our passengers, if you not traveling on one of our cruises then you are traveling second class" said Sudhir Warriar, Executive Chairman of the Company.

Since inception the Sydney Showboats have won many Tourism Awards including the Tourism Council of Australia's Award of Excellence - Tourism Restaurant of the Decade. Why don't you try this spectacular experience for yourself?
